Bitte beachten!

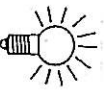

Beim Zusammenbau die Reihenfolge der Bauabschnitte einhalten! Benötigtes Teil mit einem Seitenschneider bzw. Modellbaumesser vom Spritzbaum abtrennen und entgraten. Vorsicht Verletzungsgefahr! Kleben nur mit Kibri-Plastikleber Nr. 9995. Andere Klebstoffe können zu Verformungen der Kunststoffteile führen. Kunststoffe für mehrere Artikel verwendet werden, kann es sein, dass bei diesem Bausatz einige Teile übrig bleiben.

Please note!

When building this kit, please keep to the sequence of construction step as shown. Individual pieces should be separated from the sprue using cutters or a hobby knife, removing any flash at the same time, talking care not to injure yourself when doing so. Use only kibri plastic adhesive No. 9995. Other adhesives may deform the plastic pieces! As each sprue may be used in several different kits, it may well be that some pieces will not be required for this kit.

Attention!

Veuillez à bien respecter l'ordre d'assemblage des pièces! Détachez les pièces nécessaires du jet et lissez convenablement la découpe au moyen d'un stanley. Attention de ne pas vous couper! Ne collez qu'avec la colle plastique kibri N° 9995. L'utilisation d'autres colles peut entraîner une déformation des pièces synthétiques! Etant donné que certains jets sont utilisés pour plusieurs articles, il est possible que cette boîte de construction contiennent quelques pièces excédentaires.

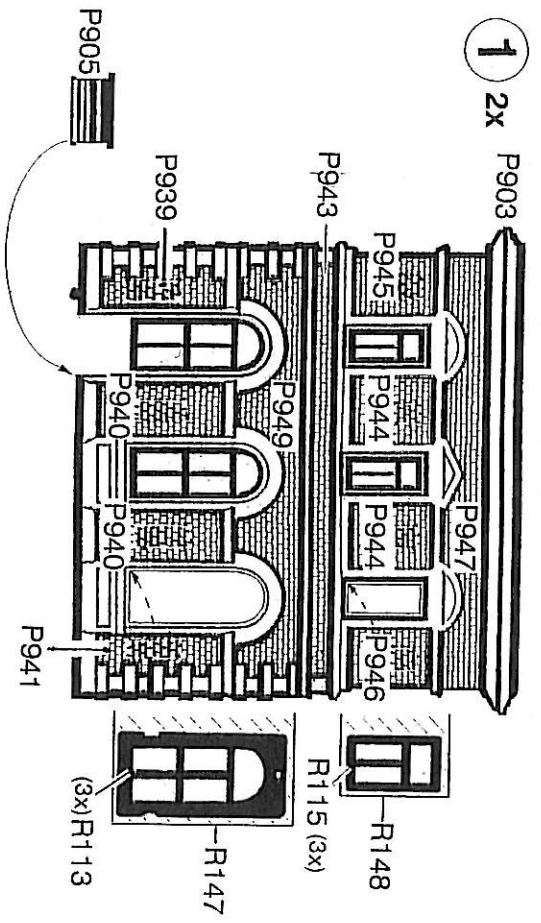

Soll das Modell beleuchtet werden, benutzen Sie bitte - nachdem die Fenster mit Deko-Gardinen beklebt worden sind - das schwarze Papier, um die verbleibenden Freiflächen der Wände und Eckkugen abzudecken. Auf diese Weise kann ein „Durchscheitern“ der Beleuchtung außerhalb des Fensterbereiches vermieden werden.

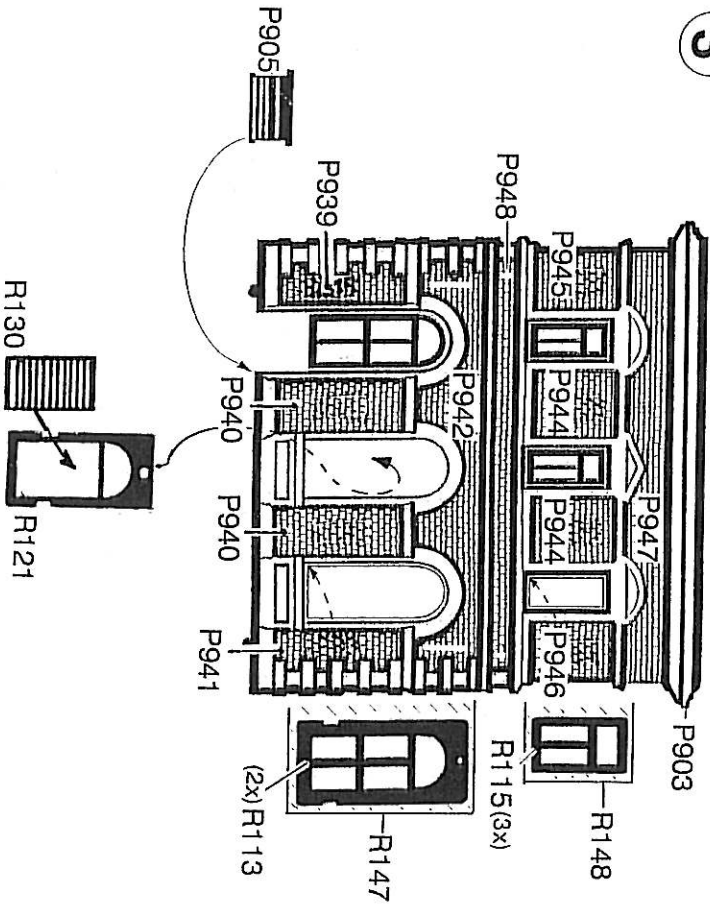

If you wish to light up the model, then - once you have glued in position all the curtains around the windows - use the black paper to cover up the remaining walls, roof and corner areas. This will prevent the lighting from "Shining through" and only the windows will be illuminated.

Au cas où vous équipez votre modèle d'un éclairage intérieur, placez le papier noir derrière les tentures afin de couvrir les fissures éventuelles qui pourraient apparaître dans les murs ou les coins, de sorte que la lumière ne reste visible qu'à travers des fenêtres.
