

# Pictograms

## Description of the *Viessmann* and *kibri* pictograms

Digital operation DCC

Digital operation Märklin

Digital operation Selectrix

DC operation

AC operation

3 rail system

2 rail system

Lighting depends to direction of travel

Sound module integrated

SuSi interface (sound)

RailCom integrated

S88 feedback bus

Close-coupling kinematics

Additional functions

Diorama mode – randomized show programme

LED-lighting

HighSpeed-Bus

LowSpeed-Bus

NEM coupling system

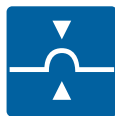

Exchange wheels

Without drive

Two-colour injection moulding process

Connection system

Drive

Pad printed

**Viessmann**<sup>®</sup>

**Innovation,  
die bewegt!**
