429,90€

Photomontage

Steam locomotive 52 5365 of the German Federal Railway.

- Design with tub-style
- Front wheelset with disc wheels
- With digitally switchable sound functions
- Z21 driver's cab available

Over 7,000 class 52 units of the war locomotive were built from 1942 to 1950. These were designed with as little effort as possible and material use was also reduced wherever possible. With a weight of 84 tonnes, it achieved an output of 1,192 kW and a maximum speed of 80 km/h. Even after 1945, the locomotives were still indispensable for reconstruction in many parts of Europe.

General data

Coupling	NEM shaft 355 without close coupling mechanism
Minimum radius	192 mm
Number of driven axles	2
Number of axles with traction tyres	2
EAN	9005033390211
Scale	N
Epoch	III
Railway Company	DB

Electrical

Motor	3 pole motor
Head light	Direction dependent dual headlights
LED head light	yes
Sound	yes
Control	DC Digital
Interface	Electrical interface for traction units according to NEM 651 standards with plug-in fixture
Digital decoder	NEM 651

Measurements

Length over buffer	144 mm
