- Bogies with "Megi" rubber suspension
- Authentic roof design
- Version with pilots
- Tail light switchable with a DIP switch
- Driver's cab lighting installed; switchable in digital operation
- Z21 driver's cab available

Locomotive 218 406 was delivered to the Deutsche Bundesbahn in April 1976 by Friedrich Krupp in Essen, finished in the then-standard ocean blue and beige livery. It was initially assigned to the depot in Kempten in the Allgäu region. Between 1993 and 2018, the locomotive was based at various depots, including Regensburg, Stendal, Halberstadt, and Ulm. In June 2017, it was involved in an accident in Langenargen on Lake Constance, during which it caught fire and suffered severe damage. In June 2023, 218 406 returned to its original home depot in Kempten. Since September 2023, it has been back in service, now wearing a new oriental red livery with a bib design.

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	yes
Traction tyres	2
Number of driven axles	4
EAN	9005033385095
Scale	N
Epoch	VI
Railway Company	DB-AG

Electrical

Motor	3 pole motor
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Control	DC Analog
Interface	Electrical interface for traction units Next18

Measurements

Length over buffer	102 mm
