

## Electric locomotive Ae 6/6 11407, SBB

7560037 | SBB

railway company: SBB

**239,90€**

Electric locomotive Ae 6/6 11407 of the Swiss Federal Railways.

Update!

- Canton locomotive "Aargau"
- Green livery version with Next18 interface available for the first time
- With a completely redesigned motor
- Finely detailed model with many separately applied plug-in parts
- Delicate pantographs with innovative mounting
- Fine windscreen wipers as etched parts

As the successor to the legendary Crocodiles, the SBB procured a larger series of Ae 6/6 locomotives from 1952 onwards, intended as universal locomotives for use on the Gotthard route. Each locomotive bore the coat of arms of a canton, a cantonal capital, or a major Swiss city. For this reason, they became known as "coat of arms locomotives."

## General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	yes
Traction tyres	2
Number of driven axles	4
EAN	4005575262279
Scale	N
Epoch	V
Railway Company	SBB

## Electrical

Head light	Light changes true to the Swiss original - direction dependent
LED head light	yes
Control	DC Analog
Interface	Electrical interface for traction units Next18

## Measurements

Length over buffer	115 mm
