

Electric locomotive 193 452-0 “Schweizpiercer”, SBB Cargo International

7560088 | **SBB**

railway company: SBB

239,90€

Electric locomotive 193 452-0 “Schweizpiercer” of the SBB Cargo International.

- Named “Helvetia”
- With detailed roof design
- Cross-border use in freight transport
- Switchable headlight/tail light with DIP switch
- In cooperation with Railcolor Design

In April 2025, the last two XLoad Vectron locomotives, 193 452 and 459, which had not yet been wrapped, received their special liveries. This brings the total number of specially wrapped XLoad units, previously differing from the standard design, to four. Following the designs for Holland and Italy, SBB Cargo International has now also dedicated a special "Piercer" locomotive to Germany and Switzerland. Unlike the silver Italian Piercer, 193 459 features the same design on both sides and showcases various motifs associated with Germany.

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	yes
Traction tyres	2
Number of driven axles	4
EAN	9005033390143
Scale	N
Epoch	VI
Railway Company	SBB

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Control	DC Analog
Interface	Electrical interface for traction units Next18

Measurements

Length over buffer	109 mm
