

Electric locomotive 193 459-5 "Deutschlandpiercer", SBB Cargo International

7570074 | **SBB**

railway company: SBB

339,90€

Electric locomotive 193 459-5 of the SBB Cargo International.

- Named "Bundestag Berlin"
- With detailed roof design
- Used for cross-border goods traffic
- In digital operation with switchable headlight/tail light and high beam
- In co-operation with Railcolor Design

In April 2025, the last two XLoad Vectron locomotives, 193 452 and 459, which had not yet been wrapped, received their special liveries. This brings the total number of specially wrapped XLoad units, previously differing from the standard design, to four. Following the designs for Holland and Italy, SBB Cargo International has now also dedicated a special "Piercer" locomotive to Germany and Switzerland. Unlike the silver Italian Piercer, 193 459 features the same design on both sides and showcases various motifs associated with Germany.

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	yes
Traction tyres	2
Number of driven axles	4
EAN	9005033387457
Scale	N
Epoch	VI
Railway Company	SBB

Electrical

Head light	Light changeover true to the Swiss original.
LED head light	yes
Additional light function	yes
Sound	yes
Control	DC Digital
Interface	Electrical interface for traction units Next18
Digital decoder	Next18

Measurements

Length over buffer	119 mm
