

6 piece set (1): Railjet 2, ÖBB

6220178 | **ÖBB**

railway company: ÖBB

799,90€

Wagon set (1) with a 6 piece Railjet 2 of the Austrian Federal Railways.

The set contains a business/1st class end coach, type Ampz, a 1st class coach, type Ampz, a bistro coach, type BRmpz, a multi-purpose coach, type Bbmpvz, an economy class coach, type Bmpz, and an economy class control cab coach, type Bfmpz.

New design!

- Highly detailed models on a scale of 1:87
- Entire train fully equipped ex works
- Control wagon front elaborately detailed
- Some coaches have multi-part floors with separately attached skirts
- Separately attached disc brakes on the bogies
- Area between the coach transitions richly detailed. All connecting hoses on the coaches are attached ex works and create an almost closed image in the train formation. In addition, the coaches are coupled as close together as possible
- Air conditioning units on the roof are partially attached separately and elaborately implemented
- Multi-coloured design of the rear wall of the driver's cab
- Multi-part interior with separate plug-in parts
- Extra plug-in luggage racks in the coaches
- Extra flush-mounted train destination displays on the side walls
- Models with NEM shaft and enclosed rigid coupling

- Licensed ÖBB model

The digital versions of the models also have the following functions:

- All coaches equipped with interior lighting and current-wagonrying couplings
- Switchable driver's cab lighting
- High beam, front/rear lights and front signal for Italy can be switched on the control cab coach

With the Railjet 2, the Austrian Federal Railways is continuing its successful high-speed strategy and introducing a new generation of long-distance trains that combine maximum comfort, modern technology, and improved energy efficiency. The Railjet 2 is based on the so-called Viaggio Next Level platform from manufacturer Siemens Transportation and was designed as the successor to the proven Railjet 1. It follows a more integrated trainset concept, featuring continuous walk-through passenger areas and a high degree of modularity.

General data

Coupling	In-house produced coupling and close coupling mechanism
Minimum radius	358 mm
Article number	6220178
EAN	9005033077686
Interior fitting	Model with interior furnishing
Scale	H0
Epoch	VI
Railway Company	ÖBB

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Interior lighting	Yes, LED, Digital switchable, Driver's cab lighting
Control	AC
Interface	Electrical interface for traction units PluX16
Digital decoder	Function decoder

Measurements

Length over buffer	2137 mm
