

Steam locomotive 310.21 "Gölsdorf Edition", kkStB

7120051 | **KKSTB/BBÖ**

railway company: KKSTB/BBÖ

579,90€

Photomontage

Steam locomotive 310.21 "Gölsdorf Edition" of the Imperial Royal Austrian State Railways.

Edition model!

Drive on two axles of the tender and via cardan shaft on all three locomotive driving axles.

- Finely-detailed chassis
- Finely detailed reproduction of the control
- NEM finescale metal spoke wheels on the steam locomotive chassis
- Tank wheelsets feature greater wheel flange heights
- Opening smoke-box doors
- Many separately attached details

The kkStB class 310 is considered one of the most elegant and technically sophisticated steam locomotives of its time – a masterpiece of Austrian engineering. Its striking, streamlined appearance and exceptionally smooth running made it the queen of the rails even back then. No collection should be without a model of this legendary express locomotive: It combines historical significance, technical sophistication and timeless aesthetics in perfect miniature form. It is a real highlight for lovers of classic steam locomotive technology.

General data
