

## Diesel locomotive 753 211-2, CD

7310088 | **CD**

railway company: CD

**344,90€**

Photomontage

Diesel locomotive 753 211 of the Czech State Railways.

- Version with yellow window frame and warning stripes
- Finely detailed model with many separately applied plug-in parts
- Attached set of plates
- In digital operation with light functions based on CD model

The so-called "diving goggles" or "spectacle snake" was developed and built at CKD in Prague. The first prototypes of the T 478.3 diesel locomotive series were built in 1968. The most significant change compared to the T 478.1 predecessor type was the replacement of the combustion engine, which increased the output from 1,104 kW to 1,360 kW. The locomotives earned their nickname from their distinctive appearance, featuring glare-free driver's cabs. A total of 408 diesel-electric universal locomotives were built.

## General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7310088
EAN	9005033386566
Scale	H0
Epoch	V
Railway Company	CD

## Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Sound	yes
Control	DC Digital
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22

## Measurements

Length over buffer	190 mm
