

## Diesel locomotive 753 211-2, CD

7320088 | **CD**

railway company: CD

**344,90€**

Photomontage

Diesel locomotive 753 211 of the Czech State Railways.

- Version with yellow window frame and warning stripes
- Finely detailed model with many separately applied plug-in parts
- Attached set of plates
- In digital operation with light functions based on CD model

The so-called "diving goggles" or "spectacle snake" was developed and built at CKD in Prague. The first prototypes of the T 478.3 diesel locomotive series were built in 1968. The most significant change compared to the T 478.1 predecessor type was the replacement of the combustion engine, which increased the output from 1,104 kW to 1,360 kW. The locomotives earned their nickname from their distinctive appearance, featuring glare-free driver's cabs. A total of 408 diesel-electric universal locomotives were built.

## General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	2
Number of axles with traction tyres	1
Article number	7320088
EAN	9005033386573
Scale	H0
Epoch	V
Railway Company	CD

## Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Sound	yes
Control	AC
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22

## Measurements

Length over buffer	190 mm
