

## Electric locomotive 193 452-0 "Schweizpiercer", SBB Cargo International

7500073 | **SBB**

railway company: SBB

**299,90€**

Photomontage

Electric locomotive 193 452 "Schweizpiercer" of the SBB Cargo International.

Circuit board update!

- Execution of the pilot and bogie covers according to the XLoad locos
- Named "Helvetia"
- Multicoloured control panel and rear driver's cab wall
- With detailed roof design
- Used for cross-border goods traffic
- In cooperation with Railcolor Design

In April 2025, the last two XLoad Vectron locomotives that had not yet been vinyl-wrapped, 193 452 and 193 459, also received their wraps. This brings the total number of specially vinyl-wrapped XLoad units, previously differing from the standard design, to four. After the Netherlands and Italy, Germany and Switzerland have now joined the ranks with their own Piercer-themed locomotives at SBB Cargo International. Unlike the silver Italian Piercer, locomotive 193 452 features identical designs on both sides and showcases a range of motifs familiar from Switzerland.

## General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7500073
EAN	9005033067175
Scale	H0
Epoch	VI
Railway Company	SBB

## Electrical

Head light	Light changeover true to the Swiss original.
LED head light	yes
Additional light function	yes
Control	DC Analog
Interface	Electrical interface for traction units PluX22

## Measurements

Length over buffer	218 mm
