

Electric locomotive 186 119-1, SNCB

7500166 | **SNCB**

railway company: SNCB

254,90€

Electric locomotive 186 119 (2869) of the Belgian National Railways.

- Version in the current design
- With detailed roof design
- Many separately applied plug-in parts, some of which are etched
- Headlight/tail light switchable with a DIP switch

In December 2024, the Belgian National Railways (SNCB/NMBS) introduced new direct trains between Brussels and Rotterdam. To support this service, SNCB/NMBS leased locomotives 186 119–122—formerly operated by the Dutch State Railways—from Alpha Trains, supplementing their existing locomotive fleet. These locomotives were subsequently given the current SNCB/NMBS design.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7500166
EAN	9005033384562
Scale	H0
Epoch	VI
Railway Company	SNCB

Electrical

Motor	5-pole motor
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Control	DC Analog
Interface	Electrical interface for traction units PluX22

Measurements

Length over buffer	217 mm
