269,90€

Photomontage

Electric locomotive 7193 306 of TX-Logistik.

- Design of the pilot and bogie sideframes in line with the XLoad machines
- All modifications accurately reproduced in the model
- Multicoloured driver's cab rear wall and control panel
- Detailed roof design
- Operation in cross-border freight transport
- Free-standing grab rails, some made of metal
- Headlight/tail light switchable with a DIP switch

TX Logistik AG, founded in Bad Honnef in 1999, is now one of Europe's largest rail freight operators. As a specialist in cross-border transport networks, the company develops freight logistics concepts and industry-specific solutions. Key transport corridors run from the ports of Hamburg, Bremerhaven, Rotterdam and Antwerp to southern Germany, Switzerland, Austria and Italy. TX Logistik currently operates a fleet of around 80 electric locomotives, the majority of which belong to the Class 193 and Class 185.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7500174
EAN	9005033388003
Scale	H0
Epoch	VI

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Control	DC Analog
Interface	Electrical interface for traction units PluX22

Measurements

Length over buffer	218 mm
