

Electric locomotive BB 26005, SNCF

7510168 | SNCF

railway company: SNCF

349,90€

Electric locomotive BB 26005 of the French State Railways.

- "Trains Spéciaux" design
- Fine etched parts on the roof
- Delicate design of the two different pantographs
- Light functions switchable in digital operation according to the French model and driver's cab lighting

"Trains Spéciaux" is a service offered by SNCF Voyageurs that allows customers to reserve part or all of a passenger train. To distinguish the locomotives used for these special services, SNCF Voyageurs has chosen to repaint several Sybic locomotives in a new livery. This design harmonises perfectly with the livery of the luxurious Venice Simplon-Orient-Express sleeper coaches.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7510168
EAN	9005033384630
Scale	H0
Epoch	VI
Railway Company	SNCF

Electrical

Motor	5-pole motor
Head light	Two direction dependent tail lights and dual headlights.
LED head light	yes
Additional light function	yes
Sound	yes
Interior lighting	Yes, LED, Digital switchable, Driver's cab lighting
Control	DC Digital
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22

Measurements

Length over buffer

204 mm
